SPLASHDEV IMPLEMENTS LEASING SOFTWARE

Get to know our offer to financial services.

ERP stands for enterprise resource planning. An ERP is a business process management software.

An ERP helps you to track and manage all operations in your company: from sales to invoicing and accounting.

5 THINGS TO AUTOMATE IN YOUR LEASING COMPANY

1 Fees and penalties calculations for wholesale contracts.

2 Approval of facility agreements.

3 Lease origination.

4 Invoicing and collection.

5 Notifications.

SplashDev implements Charisma ERP, an end-to-end solution for leasing.

Charisma ERP powers the activities of Raiffeisen Leasing and BNP Paribas Leasing Solutions.
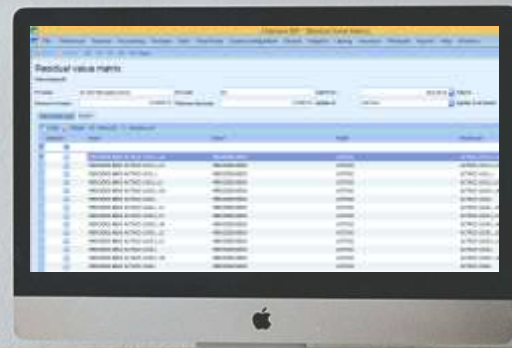

WHAT YOU CAN ACHIEVE WITH CHARISMA

1 Approve leases up to 30x times faster by transferring data from online applications to newly constituted contracts automatically.

2 Reduce risk by including multiple sources in your risk analysis and automating scoring.
